PROFILE

Former Auditor seeking to build a long term career in Data Science with the aim of leveraging his longstanding proficiency with technologies to learn and implement them in practical situations.

EDUCATION

General Assembly

2019 > 2020

Data Science Immersive

Completed 12 week full-time intensive program on Data Science.

During the program, I completed 4 projects, including one in which I applied machine learning to data from twitter to segment users into different groups. More details can be found on my website.

ACCA

2015 > 2016

Advanced Diploma in Accounting and Business Accountancy

EXPERIENCE

CHARTERED MANAGEMENT CONSULTANTS PTE. LTD.

2018

Financial Auditor

Self taught VBA (Visual Basic for Applications) and RegEx (Regular Expressions) to automate repetitive jobs and match the work efficiency of senior colleagues.

Inspect account books and accounting systems for adherence to accepted accounting procedures to record transactions.

Debit, credit, and total accounts on computer spreadsheets and databases, using specialized accounting software.

Bob Eng & Partners

2012 > 2014

Senior Auditor

Review data about material assets, net worth, liabilities, capital stock, surplus, income, and expenditures.

Inspect cash on hand, notes receivable and payable, negotiable securities, and canceled checks to confirm records are accurate.

Confer with company officials about financial and regulatory matters.
